Your partner for efficient recycling solutions

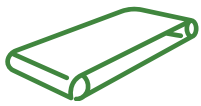

An overview of our services

Channel baler

- Stationary or mobile
- Twine, plastic or wire binding
- Pressing force: 60-210 tonnes
- Drive power: 22 - 3 x 75 kW
- Flexible equipment options
- The EP:Insight app provides a clear overview of production data and power consumption

Your advantage: Maximum compaction combined with easy maintenance.

Conveyor technology

- Chain, sliding and steel belt conveyors
- Dosing bunkers
- Tough industrial solutions
- Low maintenance requirements
- Perfectly matched to your baler or sorting plant

Your advantage: Smooth material feed: Less downtime and more throughput.

Sorting plants

- Customised plant concepts
- For plastics, paper, commercial waste and much more.
- Steel construction, platforms and walkways
- Sorting technology tailored to customer requirements
- From engineering to turnkey handover to the customer

Your advantage: Tailor-made, complete systems Instead of isolated solutions.

24/7 Service

- Qualified technicians providing remote support.
- Remote support via AR glasses
- Available 24/7, including public holidays.
- Large spare parts warehouse
- Maintenance and full-service contracts
- Manufacturer-independent
